1. The first of these is the fact that the
2. United States has a long and honorable
3. tradition of supporting the people of
4. the world who are struggling for
5. freedom and independence. This tradition
6. is rooted in the principles of the
7. Declaration of Independence and the
8. Constitution of the United States. It
9. is a tradition that has been carried
10. on by every President of the United
11. States. It is a tradition that has
12. made the United States a leader in the
13. world. It is a tradition that we must
14. continue to uphold. It is a tradition
15. that we must pass on to our children.
16. It is a tradition that we must
17. defend. It is a tradition that we
18. must cherish. It is a tradition that
19. we must live by. It is a tradition
20. that we must never let go of.
